

## Services for Oracle eAM

VIZIYA provides a wide range of implementation and technical professional services built around Oracle eAM. Our subject matter experts are focused on helping customers plan, deliver, and implement solutions to support critical business processes and ensure that the greatest possible return on their investment in Oracle eAM is achieved. VIZIYA is the only partner out there providing the complete suite of implementation skills, technical services and bolt-on products for Oracle eAM.

Our years of experience in “Best of Breed” Asset Management provides us with unique insight and knowledge which allows our subject matter experts to bring a progressive thought leadership to better help our customers plan, deliver, and implement solutions that are outside the standard asset management consulting approach found in most Oracle eAM implementations.

VIZIYA’s approach helps ensure that the greatest possible return on investment be achieved. We use our deep domain skills, knowledge of Oracle eAM, and understanding of the underlying architecture of Oracle’s technology to deliver business process automation capabilities that meet your specific business requirements.

Using our proprietary project management methodologies, based on our Best of Breed EAM expertise, we offer a full suite of Oracle eAM services, including:

- Project management
- Requirements definitions & Functionality GAP analysis
- Strategic planning and business intelligence
- Implementation Consulting
- Integration Development
- Data migration
- OBI EE Report design and development
- Off-The-Shelf “Bolt-On” Products

VIZIYA brings together functional and technical skills to suit your needs. Our consultants work in conjunction with your staff – key users, business analysts, technical specialists – guiding them through the project to a successful conclusion.

VIZIYA provides you with Technical Service Skillset unmatched virtually anywhere outside of Oracle itself. We pride ourselves on not just being functionally knowledgeable but, rather, that critical blend of business/functional knowledge on a stable foundation of technical understanding and skills.

For more information on all our offerings visit us at [www.viziya.com](http://www.viziya.com) or email us at [info@viziya.com](mailto:info@viziya.com)
